

Where's the Menu Bar?

Choose    Toolbars  Classic Menu

Command Bar

Make your command bar more user friendly by right-clicking on it and choosing Customize Command Bar. Use Large Icons and Show All Text Labels. Next, right-click again and choose unlock. Now you can size it by clicking and dragging the gripper bar  to the left or right.

Where's the Go Button?

The Go and Refresh buttons have been combined into one button. Notice that while you are typing a web address the Go button  is displayed. After the page opens it turns back into the Refresh button  .

Favorites Center

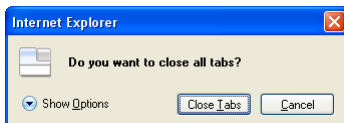

Access your Favorites with the star button on the left. Use the Add to Favorites button to save a website to your Favorites list now called the Favorites Center. 

Pin or “dock” your list of Favorite along the left side of your screen using the Pin button. Then close up the “Favorites Center” by clicking the little X. 

Close All Tabs?

Of course you want to close all tabs when you exit your browser. Choose Show Options. Select Do not show me this dialog again.
